SIRIUS – Controls made easy

Rapid and easy realization of efficient solutions – with maximum productivity

siemens.com/sirius

We would like to invite you to our Industrial Controls Tour

You will be provided with the latest information on our range of industrial controls onboard our truck.

From highly flexible systems, to switching devices and load feeders, down to motor management systems – also with communication via IO-Link, AS-Interface and PROFINET.

Convince yourself of the how SIRIUS facilitates the easy, flexible and efficient realization of switching, protection and monitoring solutions for machines and systems.

Hands-on technology

We will stop by in your region! Seize the opportunity to discuss with our industrial controls experts, who will be pleased to inform you on the suitable solution for your requirements. We are looking forward to your visit!
